

IRISH DRAUGHT HORSE SOCIETY (GB)

Registered Charity No. 1080522

Irish Draught Horse Society (GB) Mare inspection results (grading) 2021

There were 85 firm applications for the mare inspections for grading this year. 14 mares did not come forward for inspection, for various reasons.

Of the 71 mares that were inspected, at 12 different venues covering Scotland, England and Wales:

55 mares (77.46%) are now Class 1, with five achieving a Bronze Merit in conformation and movement and one achieving a Bronze Merit in show jumping.

Three Irish Draught sport horse mares achieved Supplementary Grade-Up status, so they can now potentially breed stock for inclusion in the main studbook.

12 mares did not meet the inspection standards for Class 1, and have been classified as Class 2.

Two mares were inspected and provisionally classified as Class 1 on the day, but required further veterinary evaluation. One of these has now been seen at Liverpool University. She does not have a heritable condition, so she has now been included in Class 1.

In terms of the grades of the parents, 51 of the 55 Class 1s were by Class 1 or RID sires. The other four were by Class 2 sires and none were by uninspected sires. Nine of the 12 Class 2s were by Class 1 stallions. The other three were by Class 2 sires. None were by uninspected sires.

Out of 55 Class 1 mares, 46 were out of Class 1 or RID mares, three were out of Class 2 mares and four were out of Class 4 mares. One Class 1 mare has an AID dam. All of the 12 Class 2 mares were out of RID or Class 1 mares.

Key:

Blue highlight: Bred in England, Scotland or Wales

Green highlight: Bred in Ireland

The following 55 mares passed the veterinary examination on the day and met inspection standards. They are classified as Class 1:
